3:00-3:45	wrap up activities connected to day's lessons
3:45-4:00	prep for going home

Science Monday (March 29th): Animals

Summary: For Science Monday, students will learn about various kinds of felines that live on our planet, and the different underwater animals that live in the oceans. Based on this, kids will write a story about cats, and be able to answer questions and talk about whales, dolphins, and other aquatic life.

Tech Tuesday (March 30th): Logic and Tech

Summary: For Tech Tuesday, students will learn about logical thinking and deduction by trying to solve some simple puzzles and challenges. They will learn and play some games that teach deduction, and reinforce mathematical thinking.

Arbor Wednesday (March 31): Trees

Summary: For Arbor Wednesday, students will study the life of a tree, how they develop, and the important role they play in life on Earth. Kids will learn how trees grow, the important functions of a tree, and how those functions are important for living.

Wordy Thursday (April 1st): Language

Summary: For Wordy Thursday, students will study the formation of words. They will learn how the way words are made can change their meaning. This includes understanding the ideas and use of prefixes, suffixes, and comparatives.

Journalism Friday (April 2): Newspaper

Summary: On Friday, children will create a magazine reflecting on the activities and lessons during the week. This might include articles, drawings, stories, and so forth. The goal is for students to report on activities both past and present and put them together in a magazine.
